

## Catherine G. N. Marcoux

Architect, LEED Green Associate

E-mail : [catherine@marcoux.ca](mailto:catherine@marcoux.ca)

Web site : [www.catherine.marcoux.ca](http://www.catherine.marcoux.ca)

I am a very polyvalent and curious person, easily adapting to a new domain or workplace, who like to manage projects. These qualities are very useful in coordinating projects with engineers or cities, and implementation of budget estimates. The environment and sustainable development are two important issues for me, and I try to apply sound environmental practices in each of my projects. I am looking for a job, related to project management and architecture, that will let me have a work-family balance.

### Experience

**Architect** January 2017 to today

**Intern in architecture** May 2013 to December 2016

*Bergeron Bouthillier Architectes, Terrebonne*

Assistant to the project manager, coordination with engineers, estimation, technical details, construction monitoring, materials research, and design for various private and municipal projects.

**Designer** 2008 to 2013

*CGNM Design, Laval*

Conceptualization and verification of plans for ecological houses and small projects.

**Intern in architecture** April 2011 to January 2013

*Viau Bastien Gosselin Architectes, Laval*

Coordination with engineers, estimation, technical details, construction monitoring, materials research, and design for various institutional and municipal projects.

**Building inspector** February 2010 to September 2010

*Municipalité de Piedmont, Piedmont*

Inspection of building site, application of town's laws, inventory of patrimonial buildings, Swiss chalets, and green and public spaces

**Secretary** September 2007 to March 2009

*Administration board of the COOP Aménagement, Montréal*

**Production assistant** January 2007 to August 2007

*SECOR Consulting, Montréal*

Redaction, correction and page setup of documents. I helped organized 3 conferences in Quebec City and Montréal.

**Relationnist with the press** February 2006

*École Polytechnique, Montréal*

During the event « Les filles et les sciences un duo électrisant »
